October 23, 2026

Ting Li

Assistant Professor in Computer Science
Oxford College of Emory University
Email: tli41@emory.edu; Phone: 770-784-4579

Education

Ph.D.in Computer Science University of North Carolina at Charlotte 2014-2019
Advisor: Yu Wang (IEEE Fellow, ACM Distinguished Member.)
Dissertation: Scalable Privacy-Preserving Participant Selection with Appropriate Incentive in Mobile Crowd Sensing

B.E. Xidian University, Xi'an, China 2008-2012
Information Engineering

Appointments

Assistant Professor in Computer Science 2019 - Present
Oxford College of Emory University

Teaching Overview

Broad teaching experience across undergraduate and graduate levels at both a large research university and a small liberal arts college, including introductory computer science courses at Oxford College of Emory University and graduate-level courses at the University of North Carolina at Charlotte (UNC Charlotte).

Teaching Experience

At Oxford As Oxford College serves first- and second-year students, my teaching focuses on introductory Computer Science courses with a 3-3 teaching load and a minimum of two preparations per semester. My average teaching load is 10.82 credit hours per semester (9.64 course + 1.2 research), exceeding the institutional expectation of 9. Through CS 297 (Directed Study) — taught each semester as an overload — I mentored more than 24 undergraduates, with their research yielding full papers and poster presentations accepted at competitive international conferences. Since Fall 2019, I have proposed and introduced four courses — CS 110: Computer Science Fundamentals, CS 253: Data Structures and Algorithms, DSC 101: Algorithms in Culture, and CS 255: Computer Architecture/Machine-Level Programming — and developed CS 110 and CS 253 from the ground up. A complete list of courses taught since Fall 2019 is provided below:

CS 110: Computer Science Fundamentals	1 section
CS 170Q: Introduction to Computer Science I	15 sections
CS 171: Introduction to Computer Science II	9 sections
CS 253: Data Structure and Algorithms	5 sections
DSC 101Q: Algorithms in Culture	3 sections
MLP 101: Milestone Project	2 sections
CS 297RE: Directed Study	13 sections

At UNC Charlotte Prior to my current role, I gained additional teaching experience at UNC Charlotte, where I taught introductory computing as an Adjunct Lecturer and supported graduate-level networking courses as a Teaching Assistant.

Adjunct Lecturer	ITSC 2175 Logic and Algorithm	5 sections from F' 2017 to F' 2018
Teaching Assistant	ITCS 6168 Wireless Network and Communication	Fall 2015
	ITCS 6166 Computer Network and Communication	Spring 2016

Teaching Professional Development

May 2026	Oxford Center for Teaching and Scholarship, Oxford College of Emory University *Participant:* **Institute for Pedagogy in the Liberal Arts (IPLA): Assignment Design in the Age of AI** Applied the TILT Assignment Design Framework and AI Assessment Scale to evaluate and redesign course assignments for greater transparency and AI-readiness.
Spring 2026	Center for Faculty Development and Excellence, Emory University *Participant:* **Teaching Science in the Age of AI Academic Learning Community (ALC)** Semester-long faculty learning community on AI-enhanced course design, writing instruction in the generative AI era, and Honor Code-aligned AI use policies.
Apr 2023	Center for Faculty Development and Excellence, Emory University *Participant:* **Emory College Online's Continuous Improvement Process Training** Conducted a critical self-review of an existing course and implemented revisions through a structured multi-step process with an instructional designer.
Spring '20, '21, '22	*Participant:* **ACM Technical Symposium on Computer Science Education (SIGCSE)** Engaged with current research and best practices in CS education, including curriculum design, course structure, and introductory CS pedagogy.
Mar 2021	Center for Faculty Development and Excellence, Emory University *Participant:* **Emory College Online Teaching Strategies** Four-week cohort-based program covering asynchronous content development, Canvas essentials, and synchronous lesson planning.
Jun 2020	Oxford Center for Teaching and Scholarship, Oxford College of Emory University *Participant:* **Oxford College Online Teaching Training** Training in online course planning, video content delivery, Zoom-based instruction, and Canvas course setup.
Sp–Fa 2017	University of North Carolina at Charlotte *Participant:* **Graduate Teaching Seminar** Weekly seminar discussing CS education research and best practices in course design, content delivery, and student assessment.
Oct 2017	Center for Teaching and Learning, UNC Charlotte *Participant:* **Quality Matters Workshop** One-day training on evidence-based strategies for online and hybrid course design.

Other Experience

2012-2014	Xidian University, China *Counselor* Provided academic and career guidance, serving as a liaison between students, faculty, and administration to support short- and long-term goal planning.

Research Overview

My research focuses on **mobile crowd sensing, privacy and security, and wireless networking and communication**, with additional interests in **edge computing** and **bike sharing**.

Since joining Oxford in 2019, I have published 3 peer-reviewed journal papers, 3 peer-reviewed conference papers, and presented 12 posters and research talks, with extra 1 journal paper and 1 conference paper are under review. In total, my publication record includes 12 peer-reviewed journal papers and 11 peer-reviewed conference papers throughout my career. It is worth noting that my research has consistently shown that papers accepted at highly selective conferences (these with acceptance rates of 30% or below) and journals with rigorous peer review processes (having 180 citations and recognized as the "Editor's Choice Article").

I have mentored more than 23 students on 18 different research topics, ranging from bike sharing to student transition support at Oxford. Their work has been disseminated across venues of increasing prestige, from regional symposiums to competitive international conferences, and from poster presentations to peer-reviewed full papers.

Journal Publications - Peer reviewed

1. Dan Han, Vicki Modisette, **Ting Li**, Akidul Haque, Empirical-Bayes Elastic-Net Computation for Exponential Random Graph Models, submitted to Social Networks.
2. Youqi Li, Fan Li, Liehuang Zhu, Huijie Chen, **Ting Li**, and Yu Wang, "Fair Incentive Mechanism with Imperfect Quality in Privacy Preserving Crowdsensing", IEEE Internet of Things Journal, February 2022.
3. **Ting Li**, Zhijin Qiu, Lijuan Cao, Dazhao Cheng, Weichao Wang, Xinghua Shi, and Yu Wang, "Privacy-Preserving Participant Grouping for Mobile Social Sensing over Edge Clouds", IEEE Transactions on Network Science and Engineering, April 2021.
4. A B M Mohaimenur Rahman, **Ting Li** and Yu Wang, "Recent Advances in Indoor Localization via VisibleLights: A Survey", Sensors, March 2020. recognized as **Editor's Choice Article**
5. Yufeng Zhan, Yuanqing Xia, Jiang Zhang,**Ting Li**, Yu Wang, "An Incentive MechanismDesign for Mobile Crowdsensing with Demand Uncertainties", Information Sciences, April 2020.
6. **Ting Li**, Taeho Jung, Zhijin Qiu, Hanshang Li, Lijuan Cao, and Yu Wang, "Scalable Privacy-Preserving Participant Selection for Mobile Crowdsensing Systems: Participant Grouping and Secure Group Bidding", IEEE Transactions on Network Science and Engineering, April 2020.
7. Wei Jing, Chao Liu, **Ting Li**, A B M Mohaimenur Rahman, Yu Wang and Zhongwen Guo "Path Planning and Navigation of Autonomous Sailboats and Vessels: A Survey", Journal of Ocean University of China, 2019.
8. Hanshang Li, **Ting Li**, Weichao Wang, Yu Wang, "Dynamic Participant Selection for Large-Scale Mobile Crowd Sensing", IEEE Transactions on Mobile Computing, December 2019.
9. Yue Wu, Fan Li, Liran Ma, Yadong Xie, **Ting Li**, Yu Wang, "A Context-Aware Multi-Armed Bandit Incentive Mechanism for Mobile Crowd Sensing Systems", IEEE Internet of Things Journal, October 2019.
10. Yufeng Zhan, Yuanqing Xia, Jiang Zhang, **Ting Li**, Yu Wang, "Crowdsensing game with demand uncertainties: A deep reinforcement learning approach", arXiv preprint, 2018
11. Zhijin Qiu, Zhongwen Guo, Yu Wang, Chao Liu and **Ting Li**, "Reconstruction Model of Ocean Observing Complex Virtual Instrument", Journal of Ocean University of China, 2018.

12. Yu Wang, Hanshang Li, and **Ting Li**,"Participant Selection for Data Collection through Device-to-Device Communications in Mobile Sensing", Personal and Ubiquitous Computing, February 2017.
13. Fan Li, Chenfei Tian, **Ting Li**, and Yu Wang, "Energy Efficient Social Routing Framework for Mobile Social Sensing Networks", Tsinghua Science and Technology, Volume: 21, Issue: 4, Pages: 363-373, August 2016.

Conference Publications and Presentation - Peer Reviewed

1. Albert Sun*[1], Flora Du*, **Ting Li**, "Expressive MIDI Velocity Generation Using Conditional Diffusion Models", in Proceedings of the 45th IEEE International Performance Computing and Communications Conference (IPCCC 2026).
2. Dan Han, Vicki Modisette, **Ting Li**, Akidul Haque, "Hierarchical Bayesian Elastic Net Methods on Exponential Random Graph Models" Submitted to the SIAM Conference on Mathematics of Data Science (MDS 2026).
3. Victor Li*, Carson Lam*, **Ting Li**, "Gumbel-Based Active Sparse Mobile Crowd Sensing with Time Series Transformer", in Proceedings of the 44th IEEE International Performance Computing and Communications Conference (IPCCC 2025),Austin, Texas, November 2025.(Acceptance rate: 23.4%)
4. **Ting Li**, Dan Han, A B M Mohaimenur Rahman, "Matching or Not: Stochastic Perfect Matching of Task Assignment in Mobile Crowd Sensing", in proceedings of the 11th International Conference on Big Data Computing and Communications (Bigcom 15), Muroran, Hokkaido, Japan, June 2025
5. Helen Jin*, **Ting Li**, "Participation Selection in Mobile Crowd Sensing with Diversity Ensures", in proceedings of the 2024 International Conference on Computing, Networking and Communications (ICNC), Big Island, Hawaii, February 2024. (Acceptance rate: 24.1%)
6. **Ting Li**, Zhijin Qiu, Lijuan Cao, Zhongwen Guo and, Fan Li, and Yu Wang, "Privacy-Preserving Participant Grouping in Mobile Crowdsensing over Hierarchical Edge Clouds", in Proceedings of 37th IEEE International Performance Computing and Communications Conference (IPCCC 2018),Orlando, Florida, November 2018
7. Hanshang Li, **Ting Li**, Fan Li, and Yu Wang, "Cumulative Participant Selection with Switch Cost in Large-Scale Mobile Crowd Sensing", in Proceedings of 27th IEEE International Conference on Computer Communications and Networks (ICCCN 2018), Hanzhou, China, July 2018
8. Hanshang Li, **Ting Li**, and Yu Wang, "Multi-Expertise Aware Participant Selection in Mobile Crowd Sensing via Online Learning", in Proceedings of 15th IEEE International Conference on Mobile Ad Hoc and Sensor Systems (MASS 2018), Chengdu, China, October 2018
9. **Ting Li**, Taeho Jung, Hanshang Li, Lijuan Cao, Weichao Wang, Xiang-Yang Li, and Yu Wang, "Scalable Privacy-Preserving Participant Selection in Mobile Crowd Sensing", in Proceedings of IEEE 15th International Conference on Pervasive Computing and Communications (PerCom 2017), Kona, Big Island, Hawaii, March 2017
10. Hanshang Li, **Ting Li**, Xinghua Shi, and Yu Wang,"Data Collection through Device-to-Device Communications for Mobile Big Data Sensing", in Proceedings of 1st Workshop of Mission-Critical Big Data Analytics (MCBDA 2016), Prairie View, TX, May 2016.
11. Hanshang Li, **Ting Li**, Fan Li, Weichao Wang, and Yu Wang,"Enhancing Participant Selection through Caching in Mobile Crowd Sensing", in Proceedings of IEEE/ACM International Symposium on Quality of Service (IWQoS 2016), Beijing, China, June 2016

[1] Albert Sun, Flora Du, Victor Li, Carson Lam, and Helen Jin were undergraduate students under the supervision of Dr. Li

12. Hanshang Li, **Ting Li**, and Yu Wang, "Dynamic Participant Recruitment of Mobile Crowd Sensing for Heterogeneous Sensing Tasks", in Proceedings of 12th IEEE International Conference on Mobile Ad hoc and Sensor Systems (MASS 2015), Dallas, Texas, October 2015

Poster Presentation

Note the authors below ending with * are undergraduate students at Oxford College of Emory University, who did research under the supervision of Dr. Li.

1. Victor Li*, Carson Lam*, **Ting Li**, "Patched Forecasting with Gumbel-Based Selector for Sparse Mobile Crowd Sensing", presented at the 44th IEEE International Performance Computing and Communications Conference (IPCCC 2025),Austin, Texas, November 2025.
2. Victor Li*, Steven Chen*,**Ting Li**, "Online Data Inference with Transformer Model in Mobile Crowd Sensing", presented at the Oxford Research Scholars program (ORS) Symposium 2025.
3. Lance Ding*, Andy Wu*, Kei Nie*, Chang Liu*, "A General Approach to Website Question Answering with Large Language Models", presented at the IEEE SoutheastCon 2024.
4. Helen Jin*, Yijun Liu*, **Ting Li**, "Redesigning Mobile Crowd Sensing's Selection Logic to Ensure Participant's Diversity", presented at the 42rd IEEE – International Performance Computing and Communications Conference (IPCCC 2023)
5. Zachary Hammond* and **Ting Li**, "Stable Matching Between Emory Campuses", presented at the Oxford Research Scholars program (ORS) Symposium 2023.
6. Helen Jin*, Akhil Arularasu*, and **Ting Li**, "Redesigning MCS (Mobile Crowd Sensing)'s Selection Logic to Ensure Equality", presented at the Oxford Research Scholars program (ORS) Symposium 2023.
7. **Ting Li** "Saving More and Completing More with Data Mining in Mobile Crowd Sensing", presented at the 2021 CRA-WP Grad Cohort for Women Workshop, April 2021
8. Jessica Yoon* and **Ting Li**, "Evaluating the Current Bike Station Placements At Oxford by Analyzing Student Flow Spatially and Temporally", presented at the Summer Oxford Research Scholars program Symposium(SORS) 2021 and the Georgia Undergraduate Research Conference (GURC) 2021.
9. Yijun Liu* and **Ting Li**, "One-to-One and One-to-Multiple User-Task Mapping in Task-Abundant Mobile Crowd Sensing", presented at the Summer Oxford Research Scholars program Symposium(SORS) 2021 and the Georgia Undergraduate Research Conference (GURC) 2021.
10. **Ting Li** and Yu Wang, "Privacy-Preserving Participant Grouping for Mobile Crowdsensing over Edge Clouds", presented at the 2021 Grad Cohort for Women Workshop.
11. Amen Bedi* and **Ting Li**, "Get More Data with Less Participation in Mobile Crowd Sensing", presented at the end of the Oxford Research Scholars program (ORS) 2021.
12. Dusty Dang* and **Ting Li**, "Posted Price with Quality Guarantee in Sparce Mobile Crowdsensing during Certain Natural Phenomenon", presented at the end of Summer Undergraduate Research Experience program (SURE) 2020.
13. **Ting Li**, Hanshang Li, and Yu Wang, "Scalable Privacy-Preserving Participant Selection in Mobile Crowd Sensing", 17th Annual Graduate Research Symposium, UNC Charlotte, March 2017

On-going Research Project

1. Developing a Transformer-Diffusion framework for MIDI score humanization, experiment and paper draft are done. We will submit it in September 2026.
2. Exploring and Reviewing the Machine Learning Application in Mobile Crowd Sensing. We aim to finish and submit the paper by December.
3. Online Participant Selection with Reinforcement Learning in Sparse Mobile Crowd Sensing, We got the framework and aim to submit it in Spring 2027.

Undergraduate Research Supervision

I have supervised 23 students across 18 distinct research topics that have produced work at venues ranging from regional symposia to competitive international conferences. Of the students I have mentored in research, 38% are women, reflecting a deliberate commitment to broadening participation in computing.

Presenting and Attending Conferences and Programs

1. Attending the Teaching Professor Conference 2026, St. Louis, June 2026
2. Attending the CRA-E Career Landscape Workshop Series, Online, May 2026
3. Attending the Annual IEEE Region 3 Southeast Conference (IEEE SoutheastCon), Huntsville, AL, April 2026
4. Presenting at the 44th IEEE International Performance Computing and Communications Conference (IPCCC), Austin, TX, November 2025
5. Presenting at the International Conference on Computing, Networking and Communications, Big Island, HI, February 2024
6. Presenting at the 42th IEEE International Performance Computing and Communications Conference (IPCCC), Anaheim, CA, November 2023
7. Attending the 2023 CRA-WP Career Mentoring Workshop, Chicago,IL, November 2023
8. Attending the IEEE International Conference on Computer Communications, New York Area, May 2023
9. Attending the 2022 Special Interest Group on Computer Science Education (SIGCSE), March 2022
10. Attending the IEEE Consumer Communications & Networking Conference (CCNC), January 2022
11. Attending the IEEE International Conference on Computer Communications (INFOCOM), May 2022
12. Attending the IEEE International Performance Computing and Communications Conference (IPCCC), Online, October 2021
13. Attending the IEEE International Conference on Computer Communications (INFOCOM), Online, May 2021
14. Attending the 2021 Special Interest Group on Computer Science Education (SIGCSE), Online, March 2021
15. Attending the Design of Automation Conference (DAC), online, June 2020
16. Attending the IEEE International Conference on Communications(ICC), June 2020
17. Attending the IEEE International Conference on Computer Communications, Online, May 2020

18. Attending the 19th ACM/IEEE International Conference on Information Processing in Sensor Networks, Online, April 2020
19. Attending the 2020 CRA-WP Grad Cohort for Women Workshop, Online, April 2020

Grants and Fellowships

Funded

Faculty Development Committee Grant (FDC)	$5,421 (2023); $4,123 (2024); $4207 (2026)
Oxford Center for Teaching and Scholarship Grant (OCIT)	$1,034 (2020)
Oxford Research Scholars (SORS) Grant	2021, 2022, 2023, 2025, 2026
Summer Oxford Research Scholars Grant	2021, 2025, 2026
Summer Undergraduate Research Experience (SURE) Grant	2020, 2021, 2023

Not Funded

1. MIDAS COVID-19 Modeling Urgent Grant, "Epidemic Modeling on the Network", PI: Dan Han; Co-PIs: Rajib Paul, Ting Li, 2020
2. Mara H. Wasburn Early Engineering Educator Grant, 2021
3. CRA Trustworthy AI Research Fellowship for Early Career Scholars, 2026

Honors and Awards

Travel Award, CRA-WP Career Mentoring Workshop	2023
Travel Award, CRA-W Graduate Cohort Workshop	2020,2021
NSF Student Travel Grant, IEEE ICC	2018
UNC Charlotte Graduate Assistant Support Plan (GASP)	2014-2019
Student Travel Award, CRA-W Graduate Cohort Workshop	2015,2016
Outstanding Scholarship Award, Xidian University	2009-2011

Service Summary

My service spans institutional and professional communities. At Oxford and Emory, I have contributed to faculty governance, search committees, and advisory roles since 2019. Professionally, I serve on technical program committees and session chairs for multiple IEEE conferences, review for over 20 peer-reviewed journals, and have served as guest editor for two MDPI special issues.

Services at Oxford College

Committee	The Organization and Procedures Committee (OPC)	2022 - Pre.
Member	NSM Lab equivalency Working group	Spring 2026
	Chinese VAP Search Committee	Spring 2025
	Oxford Honor Council	2023-2024
	Oxford Studies	2023 - 2024
	CS Faculty Search Committee	2021-2023
	The Center for Healthful Living Academic Oversight Committee	2020-2021

Services at University Level

Rep'	Oxford ECAS Senate Representative	Spring 2024, 2026
Committee	Emory Center for AI Learning Faculty Advisory Committee	Fall 2025 - Pre.
	Emory CS Curriculum Committee	Fall 2026 - Pre.
Member	Undergraduate Honor Thesis Committee(3 Students)	Spring 2022
	Ph.D. Dissertation Committee	Spring 2026
